Passionate data scientist with 2 years of experience leveraging data for marketing optimization and campaign success. Skilled in advanced analytics and machine learning to deliver impactful solutions. Adept at optimizing strategies for actionable results.

Professional Experience

Kulfi Collective

Associate Data Scientist

05/2025 – Present

- Contributed to the development and maintenance of a cultural intelligence platform by refining topic tagging, building methodologies, and supporting trend prediction models.
- Collaborated cross-functionally to structure and scale the platform, ensuring consistency in data pipelines and output quality.
- Conducted competitor and audience analyses for business pitches, and supported campaign reporting with relevant insights and visualizations to strengthen strategic narratives.
- Worked on early-stage insighting by identifying how brands can leverage emerging trends, helping translate cultural shifts into actionable opportunities.

Data Analysis Intern

06/2024 – 04/2025

- Collaborated with cross-functional teams to optimize data collection and reporting processes, leading to the creation of a company-wide trends tracking platform and newsletter, increasing trend awareness and engagement.

Majid Al Futtaim

Marketing Data Analysis Intern

09/2023 – 03/2024

- Analyzed data to develop business cases that supported \$3M+ partnership negotiations with institutions like Mastercard & VISA, driving 10% sales growth and \$1M+ increased revenue.
- Conducted detailed analysis of campaigns, evaluating budget utilization, incremental GMV, CAC to assess campaign success and optimize future strategies for driving business growth.
- Managed monthly reconciliations of over \$10M USD in financial transactions, identifying data gaps and collaborating with cross-functional teams to achieve 95% reporting accuracy.

Maskottchen Technology

Python Development Intern

08/2023 – 09/2023

Developed a Python-based Telegram bot to track real-time Bitcoin prices, send alerts, and provide historical trend analysis. Enabled user queries, automated updates, and visual insights through an intuitive conversational interface.

WA Team

Tech Management Intern

06/2022 – 10/2022

Supported the digital marketing team in managing and optimizing products on the WordPress-based e-commerce site. Collaborated with product managers to ensure accurate product information.

Education

BS Data Science & Applications, 2025

Indian Institute of Technology, Madras

Societies & Activities: Alpha Gamma Nu (Core Team – Operations & Management), Boundless (Core Team – Research), Paradox (Student Relations Volunteer).

BSc Data Science & Business Analytics, 2023

School of Data Science & Business Intelligence, Mumbai

HSC, 2020

HR College of Commerce & Economics

Projects

AI Learning Assistant

Built a RAG-based generative AI agent to guide students through course content, suggest effective learning strategies, and foster academic integrity without providing direct answers.

Crime Category Classification Model

Developed a high-precision LightGBM model for crime classification in a Kaggle project, utilizing advanced feature engineering and hyperparameter tuning to achieve optimal performance.

Volunteering Experience

Bhumi NGO

Led 8 workshops with a team on Environmental education for eighth grade students ensuing in lively participation from the students and acquired great feedback.

Skills

- Languages: Python, R, SQL, NoSQL, Scala, HTML, CSS, Vue.js
- Tools: PowerBI, Tableau, Excel, MongoDB

Certifications

- Data Analytics Certificate an online non-credit specialization authorized by Google.
- Google Workspace Professional Certificate
- Understanding and Visualizing Data in Python certificate offered by University of Michigan.
